§135-16-2. Regulations.

2.1. These regulations shall serve as guidelines for the College-Level Examination Program (CLEP) of the College Entrance Examination Board in West Virginia state community and technical colleges. The extent to which the program is utilized by any institution is a matter of institutional prerogative, but credit awarded by an institution in conformity with this policy shall be transferable to all West Virginia state colleges and universities. Further, credit shall be awarded only once to recognize mastery of course content. Credit shall not be awarded for equivalent courses in which students have already earned such credit through course work, CLEP, institutional challenge examinations, life experience, or other mechanisms.

§135-16-3. Subject Examinations.

3.1. Students may be awarded credit for the successful completion of any or all of the CLEP Subject Examinations presently offered or developed in the future. They must achieve a score equal to or above the recommended score of the Commission on Educational Credit and Credentials of the American Council on Education for CLEP Exams current at the time the examination was taken. Credit shall be awarded in an amount not exceeding the number

of semesters for which the examination was designed. A grade shall not be assigned, and the credit will not be included in the computation of the student's grade-point average. The institution shall equate the CLEP credit earned with existing course offerings. If no equivalent course is offered by the institution, the credit earned by CLEP examination shall be considered elective credit. Students shall not receive CLEP Subject Examination credit for equivalent courses in which they have already earned credit.
